

CWSL POWERBALE 40XL

Semi-Automatic Horizontal Baler

Options available:

- Custom Hopper Designs
- Conveyor Feed
- Bin Lift
- Bale Eject Beacon
- Retention Claws
- Power Pack Cover
- Hydraulic Front Door
- Dual Product Switch
- Personal Safety Bar/Contact

Technical Specification:

Bale Size Nominal:	1200mm x 800mm x 1100mm (L x W X H)
Bale Weight:	up to 600kg (dependent on waste stream)
Compaction Force:	40 Tonnes
Cylinder Bore:	160mm
Motor Power:	7,5 kW
Power Supply Rating:	16 Amp 3P & E, C-type breaker
Average Cycle Time:	38 Seconds approx
Bale Discharge:	Full Eject
Bale Chamber End Door:	Manual Open, Hydraulic or manual clamp
Wire/Tape Tying:	5 Horizontal Wire Ties
Bin Tipper Range:	240 - 660 Litre (Optional)
Bale Made Light:	Standard
Baling Wire or Tape Holders:	Standard
Automatic & Manual Cycle Operation:	Standard
Bale Chamber Wear Plates:	Standard
Shear Blades:	Standard
Dimensions:	
Loading Aperture Nominal:	1250mm length x 800mm wide
Loading Height:	1650mm
Overall Baler Length:	5130mm
Overall Baler Width:	1360mm (without Bin Lift)
Overall Height:	2570mm

Pictured above:

Heavy duty serrated cutting knife makes light work of cutting and baling with the minimum amount of effort.

Our Recycling machinery is complaint and CE marked.
