

7 K G@1500S Static Waste Compactor

General Description

The CWSL1500S Range of Static Compactors are designed to have a small footprint, but are suited to heavy industrial use. This unit is ideal for general waste.

The CSWL1500S is either filled by hand or by hydraulic bin lift designed to work with 240-1100 litres Wheelie Bins.

An extremely reliable and well built machine with a powerful compaction force. All static compactor machines sold are installed by our service department and full operator training is given on installation.

Our recycling machinery is compliant and CE marked and carries a 12 months parts and labour warranty.

Technical Specification:

Type	Static Compactor
Compaction Force:	30 tonnes
Power Pack:	7.5 kW electric motor, 415V, 50Hz, 16A C Class Circuit Breaker
Control Voltage:	24V
Clear Aperture:	0.76 x 1.55m
Charge Box Rating:	1.26 m3
Ram Face Penetration:	250mm
Ram Face:	1550mm wide x 930mm high
Cycle Time:	30 seconds approximate
Method of Fill:	Manual Fill (options: conveyor, bin lift,)
Overall Dimensions:	L 2.706mm x W 2076mm x H 1285 mm (without hopper)
Control Panel:	Start, Emergency Stop, 75%, 100% Full Indicator, Binlift Controls
Running pre-set timer for number of cycles.	

Options:

- Hopper customised to suit individual loading requirements.
- Automatic Start, Automatic Binlift
