

## **BALER CWSL60**

producing bales up to 75kg

### **General Description**

Powered from a standard 13 amp plug and with a larger than average loading aperture (0.64m x 0.70m), the Baler 60 exerts maximum pressure to produce bales weighing up to 75kg. This model is ideal for baling both cardboard and plastic as well as dry waste and 20 litre steel drums.

12 months parts and labour warranty.  
CE marked and approved.

**WITH FREE  
BALE TROLLEY**

### **Technical Specification**

|                   |                        |                             |            |
|-------------------|------------------------|-----------------------------|------------|
| Height:           | 2.35m                  | Noise:                      | 74 d(B)A   |
| Width:            | 1.0m                   | Bale Dimensions             |            |
| Depth:            | 585m                   | Height of Bale              | 1.0m       |
| Weight:           | 270kg                  | Width of Bale               | 0.7m       |
| Power Supply:     | 220 volt 1.5kw         | Depth of Bale               | 0.5m       |
| Cycle time:       | 24 seconds             | Weight of Bale              | up to 75kg |
| Loading Aperture: | .64m wide x 0.70m high | (dependent on waste stream) |            |
